Thursday & Friday, June 7 and 8 Rooms 2 & 5

Weekly Themes

Week of May 14 & 21 - Pre-Historic Dino Days

Week of May 28 - Teacher's Choice

Week of June 4 - Graduation and Promotion Week

The children will spend two weeks exploring the many wonders of the Pre-Historic Life of Dinos. Art, music, story time and many other activities and projects will create lots of play and learning for the kids.

From the entire staff of Murrieta Ranch we would like to take this time to thank you for entrusting us to share these all important and special early childhood years with your family. Research shows that a child from birth to five learns at a more rapid rate than at any other time in life. Our hope is that we have been a part of creating memories and experiences that will be the beginning of developing a positive attitude for your child about school now and in the future. Please keep in touch throughout the years. We actually have alumni that are now enrolling their children at the ranch! We love it.

Our Traditional Graduation Programs MUST GO ON!

Due to a structure failure in our Multi Purpose Room Graduation Ceremonies will be held outside under a large tent.

Although we always enjoy the extended family attendance we are suggesting just immediate family attend due to unexpected weather and what will be more difficult and limited parking.
